

Reference

Thiago Correa Lima da Silva worked for Inventsys AG as a Consultant Software Developer from 01.05.2020 until 20.12.2022.

Inventsys is a Swiss software provider for utilities in the fields of electricity, gas, water, and other public infrastructures. With the user-friendly cloud platform and intuitive mobile app, our customers save time and resources in the management and maintenance of their facilities and networks. Since 2017, we have been supporting technical companies and municipalities on their way to digitalized maintenance.

The main tasks of his work as a software developer essentially included:

- Working in an English-speaking team (Scrum/Agile).
- Co-development and further development of the API
 - OpenAPI 3.0.2
 - Postman
 - Swagger
- Co-development and further development of the Mobile App
 - React Native
 - TypeScript
 - TDD
 - Building and Publishing on App Stores
 - Delivery pipelines
- Co-development and further development of the React.JS
 - CSS
 - HTML
 - TypeScript
 - Native Javascript

Thiago's working style was always characterized by planning and methodology. He has analytical-conceptual ability to judge and think. He identified himself with the specialist tasks assigned to him and led them to good results through his personal commitment.

His behavior towards superiors was exemplary. His open and balanced manner contributed greatly to cooperative collaboration. In discussions and negotiations, Thiago always demonstrated persuasiveness and flexibility, so that very viable solutions were always reached.

Even under stressful circumstances, he reacted calmly and confidently and was able to always adapt well to situations. We would like to take this opportunity to thank Thiago da Silva for his commitment to Inventsys.

Thiago da Silva is leaving us at his own request to pursue a new professional challenge. We wish him all the best and much success in his future career and life.
